

CONTAINS BIFENTHRIN, THE ACTIVE INGREDIENT USED IN CAPTURE® LFR.

INSECTICIDE

COMPATIBLE PROTECTION, EARLY CONTROL

For powerful seedling protection before damage occurs, choose Banister™ LFC. For insect control on corn, potatoes, dry beans and peas, and other crops, Banister LFC is tank mix compatible with liquid fertilizers, providing application flexibility and easy handling. This insecticide gives growers flexibility to protect seedlings from grubs, wireworms, rootworms, mealybugs, and other harmful insects, with healthier plant stands and continued protection.

KEY FEATURES

- Compatible tank-mix partner for liquid fertilizers
- Desired control for increased yield potential
- Excellent seedling protection
