

CONTAINS PYRIPROXYFEN, THE ACTIVE INGREDIENT USED IN ESTEEM® 35 WP IGR

POSITRON™

35 WSP

IGR

POWERFUL SUPPRESSION AND CONTROL

With Positron™ 35 WSP, you can expect targeted control of scale insects and other pests such as first-generation pear psylla, rosy apple aphid, leafrollers, spotted tentiform leafminer and first-generation codling moth while being soft on bees and beneficial insects. Positron's active ingredient, pyriproxyfen, suppresses hatching eggs laid by treated adults. Yet, it is highly recommended to insure full and thorough coverage for best results and to limit applications to two per season for optimal resistance management.

KEY FEATURES

- Convenient, 4 oz water-soluble packets
- Soft on beneficials
- Disrupts life-cycles for effective control at critical life-stages

KEY USES

- Apples
- Apricots
- Cherries
- Strawberries
- Citrus
- Peaches
- Pears

EPA REG. NUMBER
93930-77

ACTIVE INGREDIENT
Pyriproxyfen 35.0%

FORMULATION
Water-Soluble Package

IRAC NUMBER
7C

SIGNAL WORD
Caution

PACKAGE SIZE
4 x 10 x 5 wt oz

RESTRICTED USE
No
