

CONTAINS ACETOCHLOR, MESOTRIONE, AND CLOPYRALID,
THE ACTIVE INGREDIENTS USED IN RESICORE®

JAVARO™

HERBICIDE

BROAD-SPECTRUM WEED CONTROL FOR CORN

Javaro™ herbicide delivers reliable, broad-spectrum weed control in corn by combining three powerful modes of action that are highly effective against both broadleaf and grass weeds. Plus, Javaro's extended application window gives growers the flexibility to combat tough weeds like waterhemp and Palmer amaranth even in changing field conditions.

KEY FEATURES

- Flexible treatment timing and wide application window
- Broad-spectrum control of tough weeds
- Fertilizer compatible*

*Refer to the label for details
